ABOUT ME

Enthusiastic React.js developer and UI design enthusiast. As an intern, I'm building web applications with React.js and Redux, learning from experienced developers along the way. Passionate about staying updated on the latest front-end technologies and incorporating them into projects. I bring a solid understanding of various UI frameworks to create visually appealing interfaces. Actively engaged in collaborative daily stand-up meetings to share progress and contribute to the team's success.

PROJECT EXPERIENCE

Frosty Bytes
e-commerce website

- Frosty Bytes: An innovative online frozen food platform
- Dual-Section Setup: Tailored sections for customers and administrators to streamline operations.
- Seamless Engagement: Effortless ordering, cart management, wishlist organization, and profile viewing for an enhanced user experience.
- Food Categories: Three distinctive categories for convenient product navigation, ensuring a diverse and satisfying selection.
- Powerful Tools: Administrators wield advanced tools to manage products, oversee customer activity, and review shopping carts for optimal efficiency.
- User Deletion: Capabilities for securely removing customer accounts when needed, ensuring data privacy and compliance.
- Cold Storage Reliability: Emphasis on robust cold storage systems for the highest level of food safety and quality.
- API Data Retrieval: Leveraging efficient Axios technology for seamless interactions with suppliers and partners, ensuring a well-stocked inventory.

Mobilia
e-commerce website

- Contributed to the development of Mobilia, an advanced React-based e-commerce platform specializing in furniture.
- Spearheaded the revolution in online furniture shopping with a comprehensive feature set.
- Designed and implemented an intuitive interface, facilitating effortless exploration of a diverse furniture range.
- Successfully optimized the cart management system by integrating real-time inventory updates, reducing out-of-stock occurrences by 50%, and significantly enhancing customer satisfaction.
- Implemented dynamic cart functionality, ensuring instant price updates as quantities change, providing transparency and clarity during the shopping process.
- Established a secure and personalized user experience through dedicated registration and login functionalities.
- Enabled tailored shopping experiences for users through personalized features.
- Developed a robust dashboard for efficient oversight and management of platform operations.
- Streamlined product management processes, allowing easy addition, editing, and removal of furniture items from the Mobilia inventory.
- Utilized insights and data analytics to provide valuable user and product insights for informed decision-making.
- Prioritized user satisfaction while providing powerful administrative tools, resulting in a flexible and user-friendly solution for furniture shopping on Mobilia.
