PROFESSIONAL EXPERIENCE

Associate - Celebal Technologies, Jaipur
Front-end Developer | April 2023 - working

- Designed and implemented responsive user interfaces for web applications using React.js, ensuring seamless navigation and optimal user experience.

- Collaborated closely with cross-functional teams to integrate back-end functionality, ensuring a cohesive and efficient end-product.

Apprenticeship - CST Infotech, Delhi
Apprentice Front-end Developer | Fab 2023 - April 2023

- Assisted in the design and implementation of responsive user interfaces for web applications using React.js, contributing to a seamless navigation and optimal user experience.

- Worked collaboratively within cross-functional teams to support the integration of back-end functionality, ensuring a cohesive and efficient end-product.

-

Projects
- Create a dynamic marketing website for Build Company utilizing Next.js for responsive and interactive user experiences.
- Develop a website clone with integrated chatbot functionality with react js for client proof of concept (POC).
- Build a dynamic front-end application using React.js, incorporating APIs for data retrieval and rendering it dynamically in a table. Implement a modal for detailed view and a loader for seamless user experience.
- Develop a robust front-end project, 'Family Gateway', using React.js and Redux, seamlessly integrating APIs and implementing routing. Enhance security with Azure and Google authentication for a seamless user experience
