CAREER VISION

Seeking a position to utilize my skills and abilities in the information technology industry that offers me Professional growth while being resourceful, innovative and flexible.

Entry level position in Python Developer.

PROJECTS

- Undergraduate Major Project in Veltech University
- May 2023
- **IOT BASED MONITORING SYSTEM FOR ADVERTISING BOARD**

    An IoT-based monitoring system for advertising boards uses sensors and connectivity to remotely track and manage the status of boards in real-time. This system enhances efficiency by providing advertisers with valuable insights and ensuring timely maintenance and content updates.

- Undergraduate Minor Project in Veltech University
- Nov 2022
- **DETECTION OF LEATHER DEFECTS UNSING CNN**

    This involves training a Convolutional Neural Network (CNN) with a dataset of annotated leather images. The CNN learns to identify various defects like scratches, stains, and discolorations by analysing patterns and textures in the images.

TECHNICAL SKILLS

1. Programming Python
2. Web Development Skills
3. Problem Solving
4. Risk Assessment

EDUCATION

QUALIFICATION	INSTITUTION	YEAR OF PASSING	CGPA/ PERCENTAGE
B.TECH (ECE)	Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, CHENNAI.	2023	7.9
INTERMEDIATE	Sri Chaitanya Junior College, TIRUPATI.	2019	9.21
SSC	Ravindra Bharathi School, TIRUPATI.	2017	8.2
