PERSONAL PROJECTS

Product Demo (11/2023 - 11/2023)
- Designed a simple gaming products website UI using React.js & deployed on github.io.

Event Management System (07/2023 - 08/2023)
- Event Management System Web Application using Java Platform aims to provide unparalleled convenience to both clients and event organizers. Our primary objective is to tackle the challenges posed by traditional manual systems and offer a comprehensive solution that streamlines every aspect of event management.

Vehicle Maintenance System (04/2023 - 05/2023)
- Developed a simple website with static html pages to demonstrate how to host your website on cloud services.
