PROJECTS

Online Book Store, 45 Days

Online Book Store. (Core java, Spring Boot). (In this project I am working on backend. we are using core java and spring boot for backend. There are two main modules are admin and customer. Customer order book, payment method, search books and many more etc. and admin check order and send forward to deliver to the customer and other etc. for frontend we are using react. For database we are using MySQL. It takes 3 months to complete the project)
