ACADEMIC PROJECTS

Mobile App	• **RentNest :** ➢ **Description :** Developed RentNest, a revolutionary React Native mobile app transforming the rental industry. The platform seamlessly connects tenants with ideal properties, offering efficient tools for landlords. My role involved implementing innovative technology to streamline processes, enhance accessibility, and foster trust between tenants and landlords." ➢ **Technology :** [React Native, Node.js, Express.js, MongoDB] ➢ **Team Size :** 1 ➢ **GitHub :** [https://github.com/shyam1112/RentNest/tree/main/RentNest]
Mobile App	• **TrimTime :** ➢ **Description :** Developed a mobile app using React Native with functionality mirroring the web platform. This app enables users to easily book hair salon appointments, enhancing user accessibility and convenience and Users can search for nearby salons, request appointments with difference of 15 minute, and receive real-time confirmations from shopkeepers within 30 second. ➢ **Technology :** [React-Native , Node.js, Express.js, MongoDB] ➢ **Team Size :** 1 ➢ **GitHub :** [https://github.com/shyam1112/HairCare-app]
