SUMMARY

Results-driven CDAC graduate with a versatile skillset encompassing ASP.Net Core and Framework, C#, Java, JavaScript, J2EE, React.js, and Software testing tools. Seeking a challenging role in a dynamic development team where I can leverage my technical expertise and passion for problem-solving to createinnovative solutions. Committed to continuous learning, I aim to contribute to the success of the organization whilestaying at the forefront of industry trends and best practices.

SKILLS

- **Technical Skills**: Proficiency in Java ,ASP.Net (Web API, Entity Framework, MVC), C#, Advance Java (Spring, Spring boot, JSP, Hibernate, MVC), JavaScript, jQuery, HTML, CSS, Node.js, React.js, MySQL,Database, SQL, Mongo DB, RESTful Services,SDLC

- **Familiar with**: C++, C, Cloud Tools (AWS), DevOps, Software Testing Automatic(Selenium) and Manual Testing, Git & GitHub

- **Operating System**: Linux, Windows

- **Soft skills**: Teamwork and Collaboration, Problem-Solving and Critical Thinking, Time Management, Interpersonal Skills, Adaptability and Flexibility

- **Good English Communication skills**

PROJECTS

Cash-Up March 2023

Journeyer: J2EE (Spring Boot) + React JS + MySQL

- **Description**:
  Journeyer is an innovative online platform that I worked on, utilizing React.js and Spring Boot, with the goal of simplifying and streamlining the process of organizing and managing tours. The system was developed with a strong focus on enhancing the user experience. One of the key features of Journeyer is its online booking functionality, which allows users to easily browse and book tours directly through the platform. Journeyer offers customizable tour offerings to meet the unique preferences and requirements of their clients. This feature allows tour operators to showcase various tour packages, highlight key attractions and activities, and provide detailed information about each itinerary. By using Spring Boot on the backend, Journeyer ensures efficient and secure data management, enabling tour operators to save time and resources. The platform handles various aspects of tour management, including customer information, bookings, and payment processing, all in a centralized system

EDUCATION

Centre For Development of Advance Computing (CDAC), Mumbai **Mumbai**

Post Graduation Diploma of Advance Computing (PG-DAC) March 2023

North Maharashtra University **Jalgaon**

Bachelor of Engineering July 2022

Mechanical Engineering
