Web Developer

Versatile and motivated Web Developer proficient in full stack technologies .Eager to contribute to innovative projects and dedicated to learning .

PROJECTS

3-D Portfolio:- Developed a 3-d portfolio using React.js, Three.js, Tailwind CSS and Typescript which has 3-D immersive graphics that allows users to interact and know about the details of the client.

Dashboard:- Developed a full stack data visualization dashboard using React.js ,Tailwind CSS and Typescript which takes Data from a database using Postgresql by calling the REST API. Then the data is visualized using D3js and includes charts and graphs which are also interactive.

To-Do List App:- Developed a To-Do List app using React.js , Tailwind CSS and REST API which allows users to create,read, update and delete tasks while saving and maintaining all the data in the database.

Weather App:- Developed a Weather app using React.js, Tailwind CSS and Typescript. The app is linked with a weather API to fetch current weather conditions which provides real-time weather information and Forecasts.

User Authorization Page:- Developed an Authorized Registration, Login, LogOut page using React.js , Next.js and Typescript, which lets user register login and logout while maintaining their data in a Database.

Quiz App:-Developed a Quiz App by using RESTful API and React.js. Which gives user random questions from the genre they choose with a hint feature for each question and upon submission score them accordingly.

Calculator App:- Developed a Calculator App using React.js , Tailwind CSS and Typescript where users can perform all the algorithmic operations.

Landing Page:- Developed a responsive full stack landing page for a client using React.Js and Tailwind CSS and TypeScript
