- Link - Github
- A restaurant billing system project using C language, Is a project that helps to make a customer bill efficiently.

WORK

Analyst
HCLTech

02/2023 - Present   *India*
HCL Technologies, commonly referred to as HCL Tech, is an Indian multinational IT services and consulting company. It is one of the prominent players in the global IT industry.

Achievements and Responsibilities
- **Integration of Communication Tools:** I integrated Outlook and Zoom to create a seamless communication channel between support teams and clients.
- **Secure Remote Access with Bomgar:** I implemented Bomgar to provide secure remote access to clients' systems. This ensured data security and compliance while troubleshooting and resolving issues remotely.
- **Cisco AnyConnect VPN:** Leveraging Cisco AnyConnect, I established secure connections to clients' networks when needed, allowing for real-time analysis and issue resolution, even for clients with complex network configurations.
