EXPERIENCE

BRIDGEON SOLUTIONS | MERN STACK DEVELOPER
Jan 2023 – Present | Calicut, Kerala

- As a MERN stack developer, my role is to develop and maintain full-stack web applications using MongoDB, Express, React, and Node.js.

- Gained valuable experience working on a live project, experiencing the real-world challenges of development, debugging issues, and delivering above 80% quality results.

- Managed time efficiently in order to complete all tasks within deadlines.

- Collaborated with other developers, designers, and project managers using Git, GitHub, and Agile methodologies.

PROJECTS

SCHOOL MANAGEMENT SYSTEM | MONGODB, EXPRESSJS, REACTJS, NODEJS, SASS
2023

- The School Management System featuring secure admin and staff logins. Implemented precise attendance and score tracking for students, along with efficient monitoring of fees and rent. Incorporated a seamless system for inquiries tracking and automated report generation. Enhanced security through role-based and record-based permissions, ensuring streamlined access control.

- The staff module served a pivotal function, contributing to nearly 60% of the system's operations. Enables staff to add students, monitor attendance, scores, fees, manage inquiries, and generate reports for comprehensive administrative functionality.

- The admin oversees the remaining 40% of system operations, responsible for creating and maintaining the entire system. They ensure data security through an advanced permission system.

- The Project features an advanced automated report generation system with diverse graphs and tables, facilitating the assessment of institutional and student growth.

MY MART ECOMMERCE | MONGODB, EXPRESSJS, REACTJS, NODEJS, BOOTSTRAP
2023

- An ecommerce platform designed exclusively for supermarkets allows users to conveniently purchase products online. Users can browse and select items from their preferred supermarket, track order status in real-time, and choose between cash on delivery or online payment for contactless delivery.

- Incorporated modules for users, dealers, and admins. Strengthened authentication security using JSON Web Tokens and validation mechanisms. Integrated Razorpay for smooth payments, Cloudinary for efficient media storage, and Formik with Yup for precise form validation, elevating user experience.

India

SKILLS

PROGRAMMING

Proficient:
JavaScript, Node.js, Express.js
React.js, HTML, CSS
MongoDB

Experienced:
Figma, Redux

LIBRARIES/FRAMEWORKS

React.js, Node.js, Express.js
Bcrypt, Redux, Mongoose, JWT
React-Bootstrap, Material UI
Formik, Yup, EJS.

TOOLS/PLATFORMS

Git, VS Code, GitHub
Postman, Figma, Notion
MongoDB Compass, Prettier
Photoshop

EDUCATION

BOARD OF TECHNICAL EDUCATION, KERALA
DIPLOMA IN CIVIL ENGINEERING
2014 - 2017 (Full time)|Malappuram
KMCT Polytechnic College

SOFT SKILL

- **TEAM WORK**
- **TIME MANAGEMENT**
- **ADAPTABILITY**
