HET TAMBOLI

hettamboli341@gmail.com | +91 6354499604

Vadodara, Gujarat

I have earned a B.Tech degree from Charotar University, specializing in Computer Engineering. My academic journey has been enhanced by a diverse range of certifications, encompassing IT Support, Web Development, Artificial Intelligence, and Digital Image Processing. Along the way, I've had the privilege of working on several significant projects, including Twitter Sentiment Analysis, the creation of a Women's Safety App, and the development of GateKeeper.

Education

Year (2020 - 2023)

❖ **Charotar University, Gujarat**   B-Tech in Computer Engineering (CE)

Completed B-Tech in Computer Engineering from Devang Patel Institute of Advanced Technology and Research (DEPSTAR) with a **CGPA of 7.27**.

Year (2017 - 2020)

❖ **Neotech Technical Campus, Vadodara**   Diploma in Computer Engineering

Completed Diploma in Computer Engineering under the examinations from Gujarat Technological University at (Ahmedabad) with a **CGPA of 7.53**.

Experience

JULY - DECEMBER (Part Time) - *Current*

❖ **Stonner's Pvt Ltd, Vadodara**   *– (2023)*

Developing the front-end of our website using technologies such as **HTML**, **CSS**, and **React.js**. Ensuring the website is **responsive** across various devices and screen sizes. Implementing animations and interactive elements to enhance user experience.

Collaborating with the design and development teams to ensure a seamless integration of front-end and back-end components. Completing approximately 30 pages of the website or a combination of **2-3 websites**, totalling **30 pages**.

DECEMBER - APRIL (Internship)

❖ **Cygbit IT Solutions, Vadodara**   *– (2022 – 2023)*

Created a final year project '**GateKeeper**' on Tailwind, React JS, Node JS, Express and MySQL where I learned how the whole project works where my role was **Frontend Development**. The API integration was done using AXIOS.

Though my role was Frontend Development I also learned how **Backend** works using Node JS and MySQL.

❖ **Cygbit IT Solutions, Vadodara** – *(2022)*

Joined as an Intern where within the first week I brushed up basic knowledge of HTML, CSS and JS.

After that I completed tasks such as mocking websites and learned '**React Js**' and made mini projects like Calculator, Text Utils App, Todo List, Covid 19 Updates Site, Ecommerce Site.

Skills

- Programming Languages: **HTML**, **CSS**, **JavaScript**
- Frameworks/Libraries: **Tailwind CSS**, **React JS**, **Node JS**,
- Express Databases: **MySQL**
- Full-Stack Development: **MERN Stack** (MongoDB, Express, React JS, Node JS)
- Other: **IT Support**, **Web Development**, **Android App Development**

Academic Projects

- Stepping Stone Project **'GateKeeper'** developed on Tailwind React JS, NodeJS and MySQL and UI was based on Material UIbesides this AXIOS was used for API integrations and this was my B-Tech Final year project where I acquired knowledge and experience of MERN Stack. *-(2023)*

- **Twitter Sentiment** analysis of live tweets fetched from Twitter (ML Project- APIs, NLP, Text Processing using RE) In which you can search by a keyword who you want to know about so when you search that keyword it will show three category of twits like Positive , Negative and Neutral Twits related to that keyword. *-(2022)*

- **Attendance Management System**.(Android- SQL, WAMP, XAMPP) helps to find students' attendance history. *-(2021)*

- **Women's safety** (Android App) which is for women to give them help in such situations like assault , robbery , rape etc. The victim will press the power button in her mobile and the app automatically sends her GPS location and short message to her emergency contacts. *- (2020)*

Mini Projects

- **Placement Portal Management System**
  Created a group project where my role was Frontend Developer and UI. The project was developed on HTML, CSS, JavaScript using Material UI and Backend was developed on ASP.NET.
- **Hotel Management System**

This project was created with Python language where features like room booking, flat no allocation, room services and payment gateway were implemented

Achievements / Certificates

- **Google IT support fundamentals.**
- **Udemy Course Certificate of completing "Web Development Bootcamp" with Colt Steele**
- **Completed "Introduction to Artificial Intelligence" course offered by Great Learning Academy**
- **Completed "Digital Image Processing" course offered by Great Learning Academy**
- **Cracked "Cloud Foundations" course offered by Great Learning Academy**

Hobbies

Music: Tabla, Harmonium,Classical Singing.

Event Management: Social Events, Festivals, Organizations, Volunteering

Sports: Volleyball, Cycling

Books: Sapiens (Yuval Nova Harari), After The Funeral (Agatha Christie)

Think And Grow Rich (Napoleon Hill).
