PERSONAL PROJECTS

AI ChatBot (06/2023 - 06/2023)
- Developed an AI Chatbot with the help of openai api and python.
- The main goal of an AI chatbot is to provide efficient and effective support or assistance to users, often with the aim of saving time, increasing productivity, and enhancing user experience.

Personal Portfolio (02/2023 - 03/2023)
- Developed a personal portfolio website that showcases my skills and experience.
- The website has had a positive impact on my career. It has helped me to land several job interviews and client projects.

JOB PORTAL (01/2023 - 04/2023)
- Developed a job portal that connects job seekers with employers.
- I am proud of the work that I did on this project, and I am excited to see how it continues to benefit people in the future.
