Education

Meerut Institute of Engineering and Technology, Meerut	Meerut, Uttar Pradesh, India
Bachelor of Technology in Computer Science	December 2020 – June 2024

Work Experience

Code Clause | Frontend Development Intern   Feb 2022 - March 2023
- Worked as a Frontend Developer.
- Built two projects based on Frontend Technology , Stopwatch and Timer application.
- Migrated the entire product from ReactJS and had Auth Functionality.
- Tech Stack:Html,Javascript , ReactJs, Redux,Tailwind CSS.

Open Weaver| Full Stack Developer Intern   Aug 2023 - Sep2023
- Worked with Full stack team on an interface of Delivery application.
- Used ReactJS for responsive user interface development
- Having Google Authentication Login System.

Projects

EdTech Application (LearningKey)| NextJS, TypeScript,Express, SASS, MongoDB   Oct 2023 - Dec 2023
GitHub: Deepak8869/EdTech_Project
- This application is built in Mern stack and has all the functionality that an Education Platform needs.
- In this having to profile or role Student and Instructor.
- In which instructors can create a course and set the amount of course and upload the course for students.
- This application has a functional Payment Gateway Integration.
- Having proper login, logout and cart system for student and instructor.

Online FastFood Application | MongoDB, NextJS, React Js, Tailwind CSS
Live Project: burgerwala.netlify.app/
- Built OTP based authentication model using Google APIs
- Delivered user-engaging interface with a decreased load time of 35% and SEO optimization
- Optimized API response by 150% by MongoDB lookup queries and database normalization

Social Media Clone(Instagram)| MongoDB, Express, React, NodeJS, CSS(SASS)   December 2023
Live Project: socialMedia.netlify.app/   GitHub:DeepakVerma/socialMedia
- Built a MERN Stack Social Media platform in 4 days as a frontend challenge
- Facilitated reading, writing, and saving recipes by decreasing API latency by 15%

Other Projects: PersonalPortfolio, MiStoreClone, Drum Game, Dice Game

Achievements

- Solved 100+ problems of DSA and CP on coding platforms, securing max rating 1650 on LeetCode and GFG.
- Earned Ronin Badge in Solving Problems in Array on CodingNinjas.

Technical Skills

Web Technologies: JavaScript, CSS, ReactJS,Tailwind CSS, NodeJS, MongoDB, Express.

Academic Coursework: Java, DBMS, OOPS, Data Structure and Algorithms, SQL

Certifications

Full Stack Development – Love Babbar(Codehelp)
Microsoft Azure Certified – Azure Fundamental
Microsoft Power Platform - Certified
