Profile

To seek a position where I can effectively contribute my skills by applying my knowledge and synchronizing my personal growth with that of my organization.

Projects

News APP

This News App shows the latest updates using a public news API, it provides a seamless way to browse current news.
Technology use: ReactJS

Bubble Game

The Game is a fun and fast activity where you pick numbers from a grid. The "Hit" label shows the number to find. The "Timer" counts down from 60 seconds. The "Score" shows how many correct picks you've made. The goal is to find as many target numbers as you can before time runs out.
Technology used: HTML, CSS, Javascript
