Project

Project Title :-Discovery Of Ranking Fraud For Mobile Appst

Ranking fraud in the mobile App market refers to fraudulent or deceptive activities which have a purpose of bumping up the Apps in the popularity list. Indeed, it becomes more and more frequent for App developers to use shady means, such as inflating their Apps' sales or posting phony App ratings, to commit ranking fraud. We first propose to accurately locate the ranking fraud by mining the active periods, namely leading sessions, of mobile Apps.
