M. Mariya Jeevitha

Email   : mariyajeevitha022002@gmail.com
Mobile No   : +91-7397561406

Education:

B.com,
Computer Application.
G.T.N Arts College,
Dindigul - (2019-2022)

Skills:

Programming Languages:
- Java
- C++
- Python

Frameworks:
- Spring

Web Technologies:
- HTML
- CSS
- JavaScript
- BootStrap
- React.JS

Database Management:
- MySQL

Version Control:
- Git
- SVN

Languages Known:
- Tamil
- English

Objective:

To be a part of a challenging team which strives for the better growth of the organization, explores my potential and provides me with the opportunity to enhance my talent with an intention to be an asset to the company.

Profile summary:

- Database management is one of my key strengths, and I've managed data systems with precision, utilizing databases such as MySQL to ensure data accuracy and accessibility.
- My proficiency in version control tools like Git and SVN underscores my commitment to streamlined collaboration and codebase stability.
- I am no stranger to popular development tools such as Eclipse and Spring Tool Suite, and I leverage them to boost productivity, streamline development, and deliver high-quality code through efficient writing, debugging, and testing.
- With a deep understanding of both the Waterfall Model and Agile/Scrum methodologies, I have the adaptability to navigate evolving project requirements and effectively manage tasks to meet project milestones.

Work experience:

Company	:	Sysvine technologies
Designation	:	software developer.
Duration	:	Sep - 2022 to till date.

Roles and Responsibilities:

- Analyzed user requirements and designed software solutions to meet business needs.
- Collaborated with cross-functional teams to gather and refine project specifications.
- Developed and maintained high-quality, scalable Java applications using industry best practices.
- Implemented efficient algorithms for data processing, manipulation, and storage.
- Utilized Spring Framework (MVC, Boot) for building robust and scalable web applications.
- Integrated Hibernate for seamless interaction with databases and improved data persistence.
- Designed and optimized database schemas for MySQL
- Collaborated with QA team to identify and fix bugs in a timely manner.
- Managed codebase using Git, ensuring version control, code reviews, and collaborative development.

Project Experience:

Project Name	:	Bookie
Client	:	Century Book World
Duration	:	OCT 2022 – Till now
Role	:	Java Developer (Technical Support)

Responsibilities:

- Using my expertise in Java, I actively contributed to the development of the e-commerce platform, focusing on building and maintaining key features that facilitate book sales.
- I effectively incorporated working in Java to create a robust and versatile system. This involved leveraging SpringBoot frameworks to streamline application development and database connectivity.
- I was responsible for implementing appealing frontend designs and ensuring the use of web technologies such as HTML, CSS, BootStrap, JavaScript and React.JS to create visually engaging and user-friendly web pages. This played a crucialrole in enhancing the overall user experience.
- I oversaw the proper management of the database systems, which included working with MySQL to ensure efficient data storage, retrieval, and manipulation. This ensured that customer and product information was accurate and readily accessible.
- I employed Git and SVN for version control, enabling seamless collaboration with other
- I utilized development tools like Eclipse and Spring Tool Suite to enhance productivity and streamline the development process. These tools facilitated code writing, debugging, and testing.

Personal Details:

Father's Name	:	A.Mohan palraj
Mother's Name	:	M.Vijaya rani
Date of Birth	:	02.05.2002
Gender	:	Female

Declaration:

I hereby declare that the information furnished above is true to the best of my knowledge and Belief.
