Parin Vaghani

I am a motivated and eager individual who strives for personal and professional development. As a JavaScript Web Developer, I have built a solid foundation in web development, with a focus on ReactJS and other relevant technologies. Through my work, I have gained expertise in front-end technologies. If you are looking for a competent and driven developer who can deliver outstanding results, I would love to hear from you.

EDUCATION

B.Tech (Computer Sci. Eng.)
Parul University

2018 - 2022   *Vadodara, Gujarat*

PERSONAL PROJECTS

eCommerce_MERN_app (01/2023 - 02/2023)
- A eCommerce project is a web application for online shopping built using the MERN stack, which includes MongoDB, Express, React, and Node.js. The MERN stack is a popular open-source technology stack for building modern web applications that can handle a large amount of data and user traffic.

iNotebook (10/2022 - 10/2022)
- iNotebook is a react app that allows users to write and store notes in a database. It also provides authentication, security features and uses my own APIs. The app is built using ReactJS, ExpressJS, NodeJS and Bootstrap5 as the main technologies.

Netflix_Clone (09/2022 - 10/2022)
- It's a Netflix clone that I built using ReactJS, JavaScript, Bootstrap5 and TMDB API. It has a sleek and modern user interface that mimics Netflix, but with some interesting changes. You can explore movies and web series from different genres and interact with them using the Netflix UI. It's a fun and easy way to discover new content and enjoy the Netflix experience.
