Aman Jangid
React Native Developer

As an experienced React Native Developer, I specialize in crafting seamless cross-platform mobile applications. With a strong command of JavaScript, I create intuitive and responsive apps that exceed user expectations. Having worked with frameworks like HTML5, Node.js, and Redux, I am now eager to explore new opportunities and expand my skills in other JavaScript platforms. Let's create innovative solutions together in this dynamic tech landscape.

Experience

April 2022 - Present
Sumedha Softech (SSPL) l Vaishali Nagar, Jaipur
Javascript Developer

As a JavaScript Engineer at Sumedha Softech, I contributed to a variety of projects including:

Jublo App (IOS and Android):
With Jublo you have the opportunity to
- Facilitating communication with customers and business partners.
- Enabling the reception of offers regardless of the time of day.
- Integrating direct booking functionality into users' calendars.
- Obtain rating from customers after completed cases.

Jublo is an online marketplace to book home service professionals. The platform enables users to book electrician and craftsman services providers. Additionally, it also offers a sales tool for craftsman service providers such as SMS marketing, branding, and more. The company's clientele includes BillingVVS, WhiteParts, and Thaning among others. This project is built in React Native, TypeScript and Redux.

Boatflex App (IOS and Android):
A boat booking app based in Denmark built on React Native and Redux.

HKV App (IOS and Android):
The HKV App, developed using React Native, is a robust and user-friendly mobile application designed to optimize data management and elevate the guest experience.
designed to streamline data management and enhance the guest experience.
With its intuitive interface and extensive features, the HKV App offers a seamless solution for adding, deleting, updating, and viewing data, making it an indispensable tool for both businesses and individuals.

Security and Privacy: HKV App prioritizes the security and privacy of your data. All guest information is encrypted and securely stored, ensuring confidentiality and compliance with data protection regulations.

Education

2017-2021

Arya college of engineering and

information technology jaipur

**B.Tech (Bachelor of
Technology)**

React-Native Intern

Sumedha Softech (SSPL) l Vaishali Nagar, Jaipur

April 2022 - July 2022

During my internship as a web and React Native developer, I immersed
myself in a dynamic learning experience that allowed me to cultivate a
diverse skill set. I proficiently worked with technologies such as
jQuery, HTML5, CSS,Redux, and JavaScript, harnessing them to create
engaging and interactive web solutions. Additionally, my involvement
in React Native development empowered me to craft cross-platform
mobile applications that prioritize seamless user experiences.
