PROJECTS

ONLINE EDUCATION APP

In Online Education App is a mobile application builte using React Native that provides platform for delivering education content to users.I have made Home Screen, Courses Cards, Course Details, Biodata of Enrolled Students, About Us Screen, Contact Us Screen. Also, I have done only one card and other cards are created automatically using API.

TODO LIST APP

Its an simple ToDo list app in which user can create ,Read ,Delete data .
In this different types of react widgets are used such as ,TouchableOpacity, Stylesheet, TextInput, FlatList, Text etc.
I have also used Hooks that are very useful in react for function base components.

RANDOM COLOUR GENERATOR

The Random Color Generator project is a mobile application built using React Native that generates random colors and displays them on the screen. This project aims to provide a simple and fun way to explore different colors and their combinations.

RESPONSIVE DISNEY PLUS HOTSTAR LANDING PAGE CLONE

The Responsive Disney Plus Hotstar Landing Page Clone project aims to recreate the landing page of the popular streaming platform, Disney Plus Hotstar, using modern web development technologies.
