Projects

Library Management Using Cloud Computring
Developed a web-based library management system using JAVA and MySQL.

* The system allows users to search for books, reserve books, and renew books.

Restaurant Management System
Developed a restaurant management system using PYTHON and MYSQL.

* The system allows restaurant owners to manage their menus, orders, and inventory.

WATERING THE GARDEN AUTOMATIC
* Designed and implemented a system to automatically water a garden using raspberry pi. The system uses sensors to detect the temperature, humidity, and water content of the soil.

Build a Guessing Game Application using Java
