Education

2016 Nashik, India	**St. Xavier's High School** *SSC*
2018 Nashik, India	**JDC Bytco** *HSC*
2022 Nashik, India	**NDMVP KBTCOE** *B.E*

Technical Skills

- JAVA
- J2EE
- C Programming
- CSS
- HTML
- SQL
- Testing
- JavaScript
- WebServices
- Hibernate
- Spring
- MySQL
- Spring-Boot
- JSP/Servlets/JDBC/JPQL
- API Testing

Projects

2022

B.E. Project : Object Recognition and Sorting Using Image Processing
- **Details:** Using Computer Vision techniques, a conveyor belt system is developed using steppers, Servo motors, and mechanical structures that can identify and sort various objects. This Reduces human effort and time consumed, and also improves the time to market the products
- **Technologies Used:** Python, Image Processing, and Machine Learning

2021

TE Project : Alcohol Level Detector
- **Details:** A circuit that is used to test whether a person is drunk or not It is based on LM3915 and MQ3 sensors.
- **Software Used:** Proteus
