OBJECTIVE

Ambitious and motivated individual passionate about UI/UX design, software development, and mobile technologies, seeking an opportunity to apply skills in UI, ES6, iOS, Android, and other relevant areas to contribute effectively to innovative projects.

PROJECT

Online Movie Ticket Booking System :

- As part of a team project during my coursework, I took a leading role in developing an Online Movie Ticket Booking System.

- The aim was to create a user-friendly platform for users to browse movies, check showtimes, and book tickets seamlessly.

- My primary responsibilities included designing the UI/UX components and implementing frontend functionalities.
