Work Experience

Web Designer & Developer
Cutting Edge Infotech, Vadodara | Nov 2020 - present

- Responsible for developing UI pages using AngularJS, HTML5, CSS3, JavaScript, jQuery.
- Developed responsive web pages for smart devices using Bootstrap and media queries.
- Used AngularJS as framework to create Single Page Applications which can bind data to specific views and synchronize data with server.
- Created custom directives and filters using AngularJS built-in $http service from controller through dependency injection.
- Used Angular $http to send GET/POST request to fetch data from server.
- Created Angular service and integration with RESTful APIs.
- Created Responsive Web Design using Bootstrap and CSS Media Queries.
- Created Navigation bar, Dropdown menu, Image Carousel, Button, Modal, Form, Table, tabs, Pagination using Bootstrap.
- Implemented two-way data binding among models, controllers and views to provide continuous updates among view and model.
- Built Angular Template for products using Angular Material and using ng-repeat to iterate the products list.
- Used ng-option to build the drop-down list to implement several search pattern such as search by categories or by brand.
- Involved in Restful JSON data synchronizing using Angular Services.
- Tested application on multiple Web Browser such as Google Chrome, Firefox.
- Build reusable code and libraries for future use.
