+91 73837 70936
Satellite, Ahmedabad, Gujarat 380015
Gitlab : https://gitlab.com/

SKILLS

- Frameworks: React Native
- Languages: JavaScript, Java
- Version Control: GitLab
- Code Editors: VS Code, Xcode, Android Studio
- State Management: Redux Toolkit
- Other: Firebase, API Integration, Pixel-Perfect UI
- Payment get-way : (Stripe)
- Integration : Firebase Integration, Rest API, Third party libraries
- Strong problem-solving
- Pixel-Perfect UI Design
- Cross-Platform Development
- Logical Coding
- Data Structures & algorithms

EDUCATION

BACHELOR OF COMPUTER APPLICATION

Shree G.K. & C.K. Bosamia Arts & Commerce College

Saurashtra University | 2021 - 2024

12TH (GUJRAT BOARD)

Muslim high school (upleta)

Percentile rank - 84.22% | 2020-2021

10TH (GUJRAT BOARD)

Muslim high school (upleta)

Percentile rank - 92.02%| 2018-2019

EXPERIENCE

REACT NATIVE DEVELOPER

Silversky Technology (Fab- 2022 - Present)

- Developed 20+ live projects from scratch, ensuring top-notch code and user experiences.Conduct code reviews and provide feedback to improve code quality
- Collaborated with a team of developers and designers to create and maintain cross-platform mobile applications using React Native Implemented responsive UI components, Navigation and State.
- Integrated REST APIs to fetch and display data, Enhancing application functionality.
- Utilized Redux to manage state and ensure data consistency across the application.
- Participated in code reviews, providing constructive feedback and improving code quality.

PROJECTS

LUXURY CAR RENTAL - SECURITY GUARD SERVICE APP
- Developed a two-sided application for service providers and customers.
- Implemented Firebase for authentication and data storage.
- Created pixel-perfect UI, added animations to listings, and integrated APIs.
- Utilized Redux for state management and native modules for camera, gallery, and local storage. Use Bottom shit model
- Use React native animation in listing

CRANE LOADER BY ADR
- Developed an application with support for English and Hebrew languages.Implemented Firebase for authentication and data storage. Designed UI according to language requirements (LTR for English and RTL for Hebrew).
- Utilized Redux for data storage and state management.

THE CLAIM PARTNER
- Developed a two-sided application for adjusters and customers.
- Integrated AWS for image storage.
- Utilized Redux for state management and native modules for camera, gallery, and local storage. Implemented Firebase for authentication and data storage.
- Created pixel-perfect UI, added animations to listings, and integrated APIs.
- implemented pagination, and integrated google map features.
- Enabled appointment creation, document upload, and communication between users and service providers.

RIO - DEMOLITION STAFF ATTENDANCE
- Utilizes Face Detection for secure login and logout.
- Requires user's signature for sign-out verification.
- Enhances attendance management and security for demolition staff
- Stored project details and managed staff pay based on project contributions..
